Forecast for Tuesday 23 May 2023

Weather: A locally chilly start to the morning but soon warming up with some hazy sunshine. Remaining mostly dry throughout the day albeit somewhat cloudy, especially during the morning. Cloud possibly thick enough to give the odd shower during the evening but cloud soon clearing to give some late sunshine, then dry overnight. Feeling warm in the sunshine with light winds.

Chance of cloud-free hill tops above 600m: 70% lifting to 90% by the afternoon

Low cloud and visibility: A few scraps of cloud at around 500-600m on north facing slopes at first, gradually lifting to cover the higher tops for a time before lifting further above summits around mid-day. Generally very good visibilities.

Meteorologist's View

Despite the cloud, UV levels are still High or Very High in any sunny breaks, so additional sun protection is recommended as well as staying well hydrated.

Recent rainfall: measured at Neuadd: altitude 353m

Recorded at	Last 24 hours:	Last 48 hours:	Last 72 hours:
14:00 on Sun 21 May 2023	0mm	0mm	0mm

Forecast for Wednesday 24 May 2023

Weather: A fine and bright day with lengthy sunny spells. Higher level cloud will turn the sunshine hazy at times through the morning, with some fair fair-weather cloud bubbling up during the afternoon. Feeling warm underneath the strong sunshine, with UV levels High or Very High.

Maximum wind: Northwesterly winds 10-15 mph.

Chance of cloud-free hill tops above 600m: 90%

Low cloud and visibility: Some patchy cloud at around 500-700 m may cover the higher slopes first thing, soon lifting to well above summits. Generally very good visibility throughout.

Temperature: **Valleys:** Plus 19 Celsius.
At 600m: Plus 15 Celsius.
Freezing level: Above summits.
